

FinScore – Impact Model & Business Case

- 14 crore+ demat account holders in India
- 95% have no financial plan
- A financial advisor costs ₹25,000+/year — accessible only to HNIs
- FinScore gives a complete financial health assessment in **under 5 minutes, for free**
- Estimated time saved per user: 3–4 hours of research
- If 1% of ET's 50M monthly users use this = **5 lakh people** get a financial plan they never had

PROBLEM

- 95% of Indians have no financial plan
- Financial advisors cost ₹25,000+/year — only HNIs can afford them
- 14 crore+ demat accounts, most investors flying blind

SOLUTION

- FinScore: free 5-minute Money Health Score for every Indian
- 6-dimension scoring: Emergency Fund, Insurance, Investments, Debt, Savings Rate, Retirement
- Specific, actionable recommendations with real ₹ amounts

IMPACT MATH

- ET has 50M monthly active users
- If 1% use FinScore = 5,00,000 people get a financial plan
- Time saved per user: ~3 hours of research → 5 minutes
- ET monetization: each weak dimension = upsell opportunity (insurance, SIP, liquid funds via ET's partner network)
- Estimated partner revenue per converted user: ₹500–2000

ASSUMPTIONS

- Conversion rate conservative at 1%
- Partner commission estimated from industry standards
- Time saving based on avg. financial planning research time
